CITY OF ATHENS FIGHTS EPIDEMIC OF SMALLPOX

Outbreak Takes Heavy Toll of Children and Adults in Affected Places.

RIVALS INFANTILE PARALYSIS

Results in Compulsory Vaccination, but Supply of Vaccine Is Limited. Great Reliance Placed Upon Efficacy of One of Sacred Ikons.

ATHENS, GREECE, August 26 .- The epidemic of infantile paralysis in New York is rivaled by an enidemic of smallpox in Athens that is taking a heavy toll of both children and adults in the city proper, and in Piracus, the port of Athens, Incidentally, Greek ships arriving from Alexandria report the spread of the bubonic plague in Egypt, and cholera has broken out in the Island of Castelloriza, due to the arrival of refugees from Asia Minor. A quarantine has been established between the island and the ports

The epidemic of smallpox in Athens has resulted in compulsory vaccination or revaccination, but it is difficult to carry out the orders, as the supply of vaccine is limited, and the movement of the demobilized troops into the interior makes it difficult to combat the

The remarkable feature of the epidemic is the reliance that is being placed upon the efficacy of one of the sacred ikons, or images of Christ. The ikon of St. Barbara of Nicomedia, in Asia Minor, has been brought with ancient church of the convent of Daphni, near Athens, and set up in the church of Chryssospiliotissa, in the quarter where the smallpox is taking

All morning, during the transportation of the holy ikon the bells of every church in Athens and the Piraeus tolled at regular intervals. The procession crept, afoot, along the sun-parched road that for five miles lies shadeless across so graphically described by priests were slowly whitened by the dust, and little streams of sweat made irregular lines down the gray faces of those who formed the cortege bearing

BELIEF IN ITS EFFICACY IS VERY PROFOUND

The belief in the efficacy of the ikon of Saint Barbara is very profound among the simpler Greeks. Especially is this true of the artillerymen and firemen, whose patron saint, St. Barbara, is not only in Greece, but in other countries as well, where her day is was a virgin martyrized in 235 A. D during the persecutions which characterized the brief reign of the Roman Emperor Maximin; or, according to an her own father, who had falled to persunde her to renounce Christianity, in the year 306, under the Emperor

the power of tkons is seen in the prepations for the annual pilgrimage to the shrine of the virgin of Tinos, which be made on August 29. It is a Greeks that the virgin saved the life he hovered between life and death after an operation at the hands of two famous German surgeons. At a time when hope had practically been given up, it was decided to bring the sacred ikon of the virgin of Tines to the bedentire route peasants gathered and knelt at the roadside as the sacred image passed; and a minister in the antechamber of the royal palace marked on a special map the progress of the procession, while outside the palace thousands of humble Greeks gathered, many weeping with hyster! cal emotion.

Finally the image arrived, and was set up in the bedroom of the monarch that moment the King's life was saved. The image of the virgin of Tinos was then returned to its shrine on the top of a mountain, whither every year come tens of thousands of the devout of the Greek Church, much as French Catho-

lics visit the shrine of Lourdes. The 12,000 inhabitants of the Island of Tines have a total income of \$100 .-690 per annum from the yearly pilgrimage, which is over in one day,
